

Observe Insurance — How to Start a Claim

Step 1: Report the Incident

Contact us as soon as possible after the incident. You can file a claim by calling 1-800-555-CLAIM (available 24/7), visiting observeinsurance.com/claims, using the mobile app, or contacting your assigned agent.

Step 2: Provide Details

Have your policy number ready. Describe what happened, when and where the incident occurred, and the extent of the damage or loss. If others were involved, provide their contact and insurance information.

Step 3: Document Everything

Take photos or videos of the damage. Keep receipts for any emergency repairs or temporary living expenses. Do not discard damaged items until your adjuster advises you to do so.

Step 4: Adjuster Assignment

A claims adjuster will be assigned to your case within 24-48 hours of filing. They will contact you to schedule an inspection and explain the next steps.

Step 5: Track Your Claim

Monitor your claim status anytime at observeinsurance.com/my-claims or through the mobile app. Your adjuster will provide updates at each stage of the process.
